ADS3D

Be ready to squirt on her face, preferably into her mouth. There are not many chances.

Feel the desire of our new body

Fungus beast Xuewen learned a lot
through computer data.

This experimental body named Shuyan
was also caught. Like Xuewen, the
matching degree is second only to Xuewen.
It is prepared as a spare after Xuewen's
mycelium fusion experiment failed.

Spray mycelium

The fusion is completed, and it is also perfect.

The footsteps are very close, let your bodies be ready
to fight.

The opponent's rifle fire will cause the body to become stiff.

It is impossible to avoid the radiation gun. The radiation is too lethal to the mycelium.

There is no chance of winning. Give up resistance.

The two fungus beasts recovered by the company

Originally planned to use two test subjects to make fungus beasts. When no one was watching, the mycelium accidentally leaked. However, the fusion was very perfect, and the separation experiment could not separate them. It was decided to release them as planned.

You gained all of Emma's memories, emotions, and
consciousness.

Fungus Beast Shuyan: Jingyi!

Let fungus beast Shuyan fully release the mycelium.
(Now we can accurately control the flow of
mycelium, without unnecessary waste)

Fungus beast Jingyi feels very comfortable.
