 growth sound

"**Growth sound**" only affects girls, not boys, and has been developed in top secrecy.

The sound is played discreetly over **the school's public address system.**

Hey there! I came to visit you.

Thank you.

Come on, you're sick, so you should sit down.

Okay.

So, how are you feeling?

I'm hanging in there, doing okay.

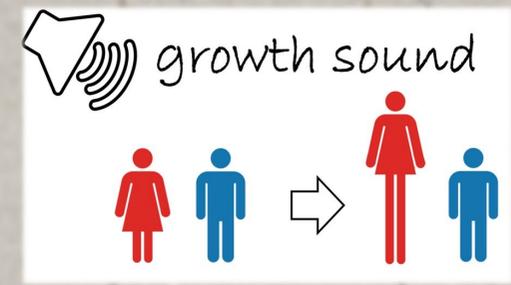

Recently, how's school been?

Oh, by the way, there have been some strange noises in the classroom lately.

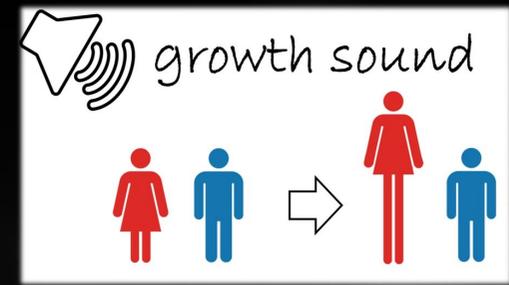

What kind of noises?

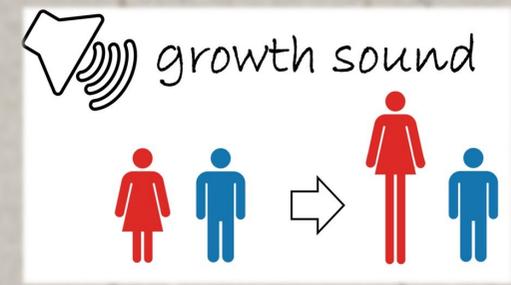

It was something like this.

Oh, it's giving me
a weird feeling...

**Are you okay? I'm leaving today,
so take it easy and rest.**

Day 1 140cm

3 days later

It's a get-well bouquet for you.

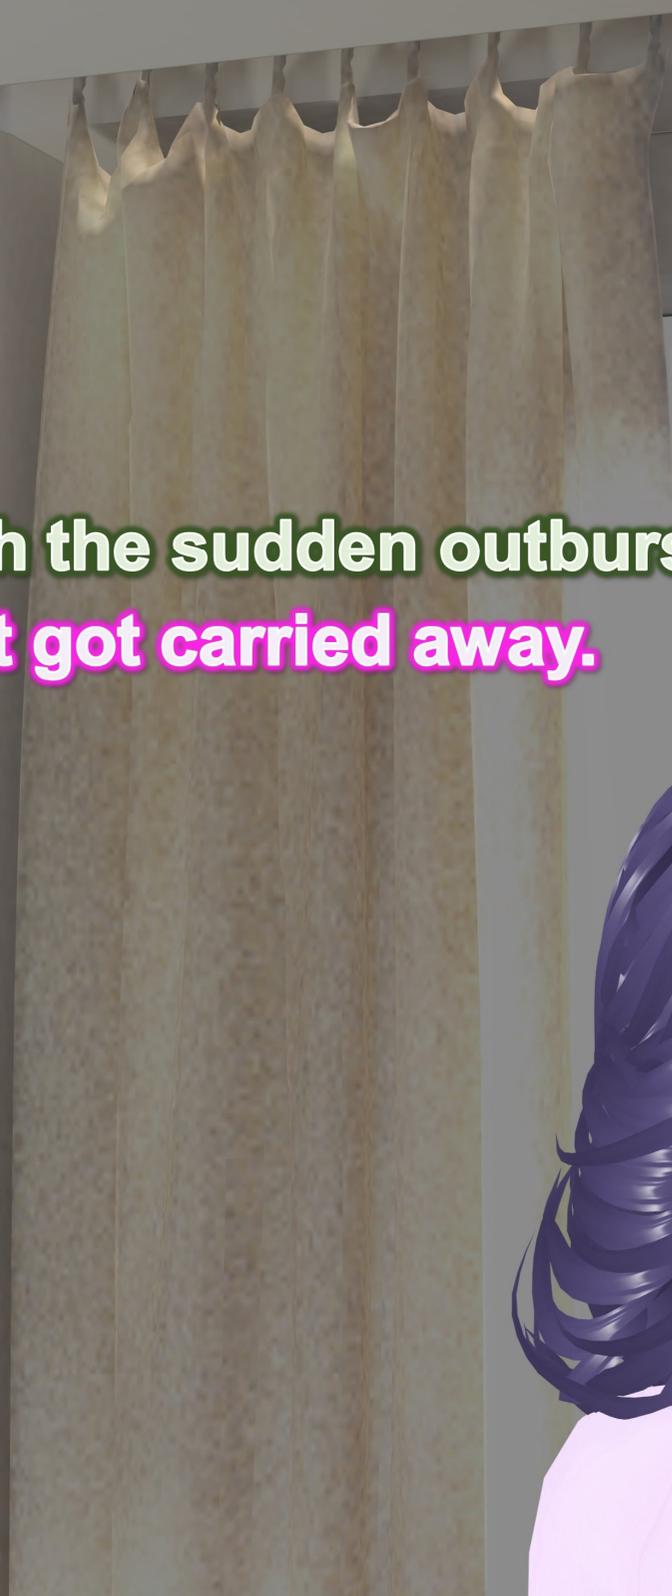

Oh, wow, thank you!

I'm so happy!

What's with the sudden outburst?
Sorry, I just got carried away.

Are you sure you're okay moving that much?

Yeah, I've been feeling better lately. I'm getting really energetic.

Day 3

140cm → 150cm

150

100

6 days later

You need to sleep, don't you?

**I've been feeling better lately,
so it's okay.**

What's wrong?

Oh, it's nothing...

**What's wrong?
Your face is red.**

Do you have a fever?

**What if you get sicker than me?
Go home today!**

Okay, I understand.

Day 6

150cm → 160cm

12 days later

Huh?
She's not here.

Could it be?

What!?

Whoa!?

Huh? I'm taller than you!

Girls grow in height, style and ability!

But boys stay the same!

Normally, it should be the guys getting taller.

It's quite mysterious.

Small girls outgrow boys!

It seems like I've gained more power during my growth. My doctor said, "You'll keep growing."

Girls grow after growth!

In our class, all the girls have been growing like crazy, and they've all crossed the 2-meter mark.

How's school been lately?

Well, you won't believe this, but listen to this.

**This is a story for tall women,
breast expansion, and real GTS lovers!**

*You're
getting cuter and cuter.*
