Preparations

Day 1, night

It's finally tomorrow. I just got a call from the man I was supposed to meet.

So it looks like we'll be able to start tomorrow as planned.

I'm looking forward to testing the new drug we've been pursuing for so long.

Please supervise the clinical trial tomorrow.

That's right. Even though it's theoretically complete, tomorrow will be the first time we check the efficacy of the new drug.

I've been preparing up until today, so I haven't looked through the man's information yet.

Can you tell me more about him?

Well, his name is Takafumi.
He's a 30-year-old single man,
170 cm tall and weighs 70 kg.

His hobby is driving, and he doesn't
seem to have any chronic illnesses.

It seems that the staff at the clinic
approached him on the street after
conducting a preliminary survey.

I see, so he's in very good health.
Then he's perfect for the test of the
'human body reduction drug' this time.

If he was referred by the "treatment center",
does that mean he's also passed the aptitude test?

Yes, of course.
He seems like a very bad man, so he's
been sent over here.

I'll tell you more about him later,
but you can thoroughly check the new
medicine and there's no problem.

Yes, that's good.
Then, you can do as you usually do.

It's from tomorrow afternoon, right?
Please take care of it.

Interview

Day 2, afternoon

Hello. Thank you for coming all the way from so far away.

My name is Honoka, and I'm a researcher. And this is Chihiro, the therapist.

We would like to thank you for your cooperation in our drug test, and we will pay you a reward after the test is over.

Hello, nice to meet you, I'm Takafumi. I look forward to working with you from today.

Honoka

As we have already told you,
we cannot explain the details of the medicine you will be testing.

However, in order to ensure your safety,
we ask that you check your physical condition every morning.

If you wish to stop the test at any time, you can do so.
Of course, we will also check your physical condition,
so please do not worry.
We will lend you a device to monitor you later.

In addition, your daily tests will basically be conducted
in the afternoon or later.

During the test, you must follow our instructions.

Please make sure to follow them for your own safety.

(I see, they're very thorough about safety.
I was a little worried, but I guess I was worrying too much.
Also, the women here are quite beautiful.
I have to say I'm very lucky.
I'm starting to look forward to it.)

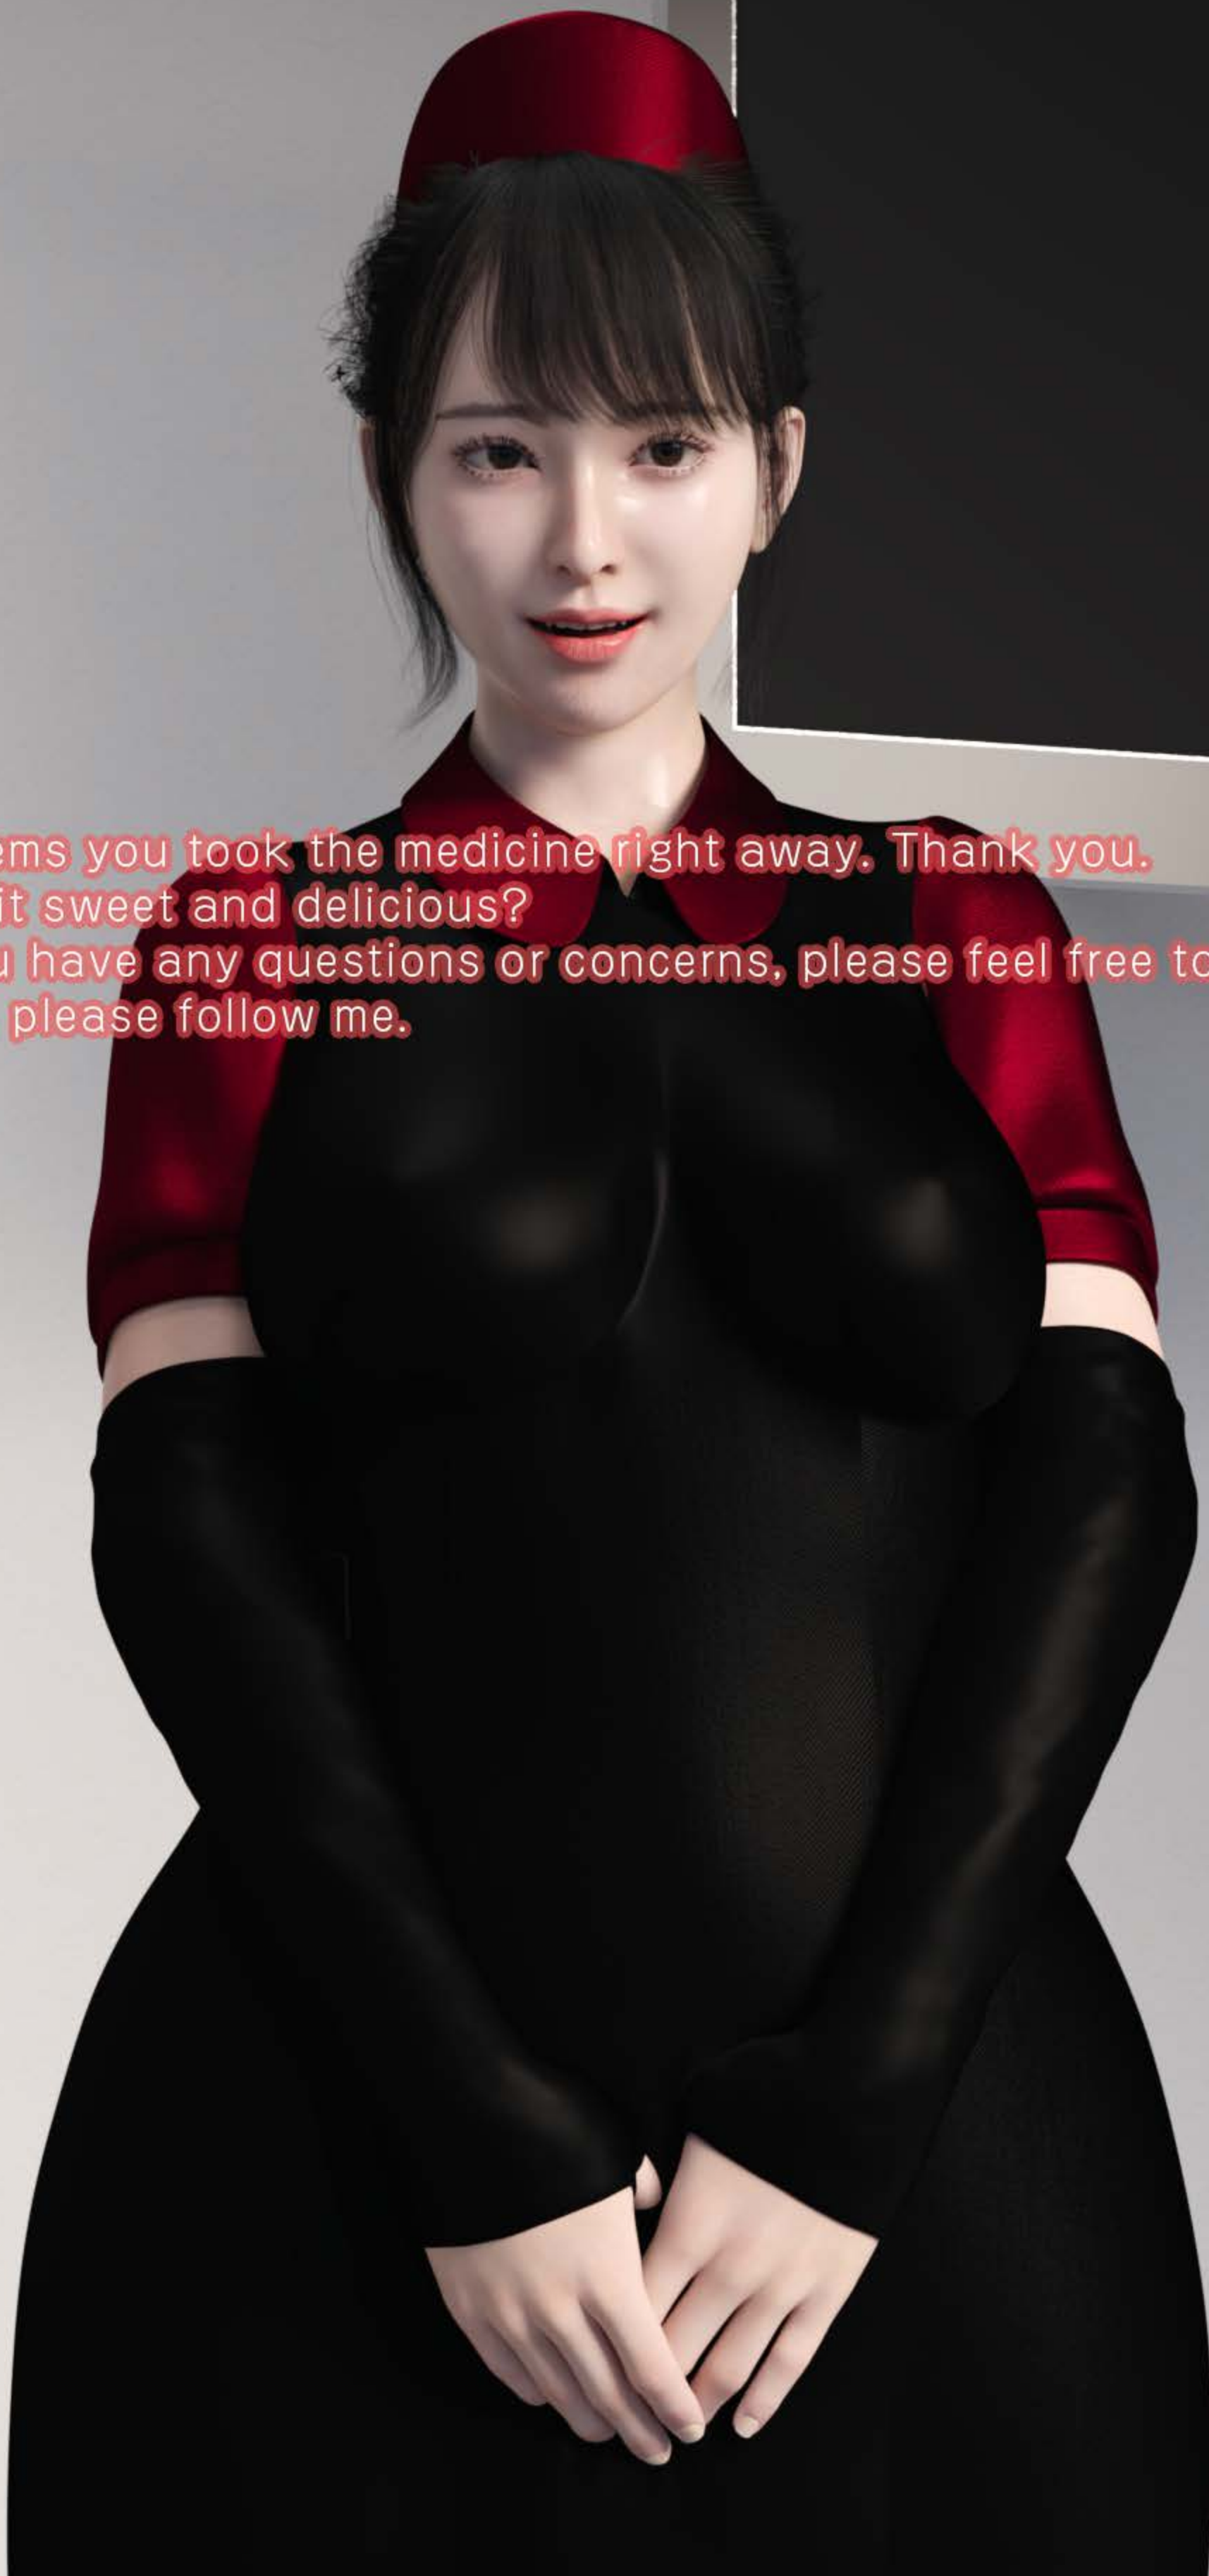

You have already checked and signed the consent form.
So that's all the explanation we have for you here.
We will explain the rest of the details as you move to the test room.

Now, please take the tablet on the desk.
Then, slowly dissolve it in your mouth like a candy.
I will also go to the test room later.
So for now, please follow Chihiro's instructions.

Chihiro

It seems you took the medicine right away. Thank you.
Isn't it sweet and delicious?
If you have any questions or concerns, please feel free to ask.
Now, please follow me.

Yes, this is your private room.

Please put all your belongings in the basket on the bed.

Also, please take off everything you are wearing except your pants.
Then, please attach the device on the desk to your neck yourself.

We will come in the evening.
So please take your time to get ready.

Oh, yes. I understand.

Day 2, evening

Now it's time to start, so let's begin.

But before that,
I'd like to give a final explanation.

This is about how to stop the test
and about the daily test.
Is that okay?

Yes, of course.
Please explain.

Please look at this.
Do you see the two switches?

If you want to stop,
press them in the order right, left, right.

You cannot operate them during the test.
So please check your condition every morning
and operate them by noon.

Is that okay?

Yes, I understand.
So I just press them in the order right, left, right?

A woman with short brown hair and black-rimmed glasses, wearing a white lab coat over a dark top, is speaking to a man. The man is seen from the back, with dark curly hair and a black strap over his shoulder. They are in a room with orange walls and a white ceiling light.

Yes, that's the correct order.
This is necessary to prevent operational errors,
so we know it's a bit of a hassle, but please follow the instructions.

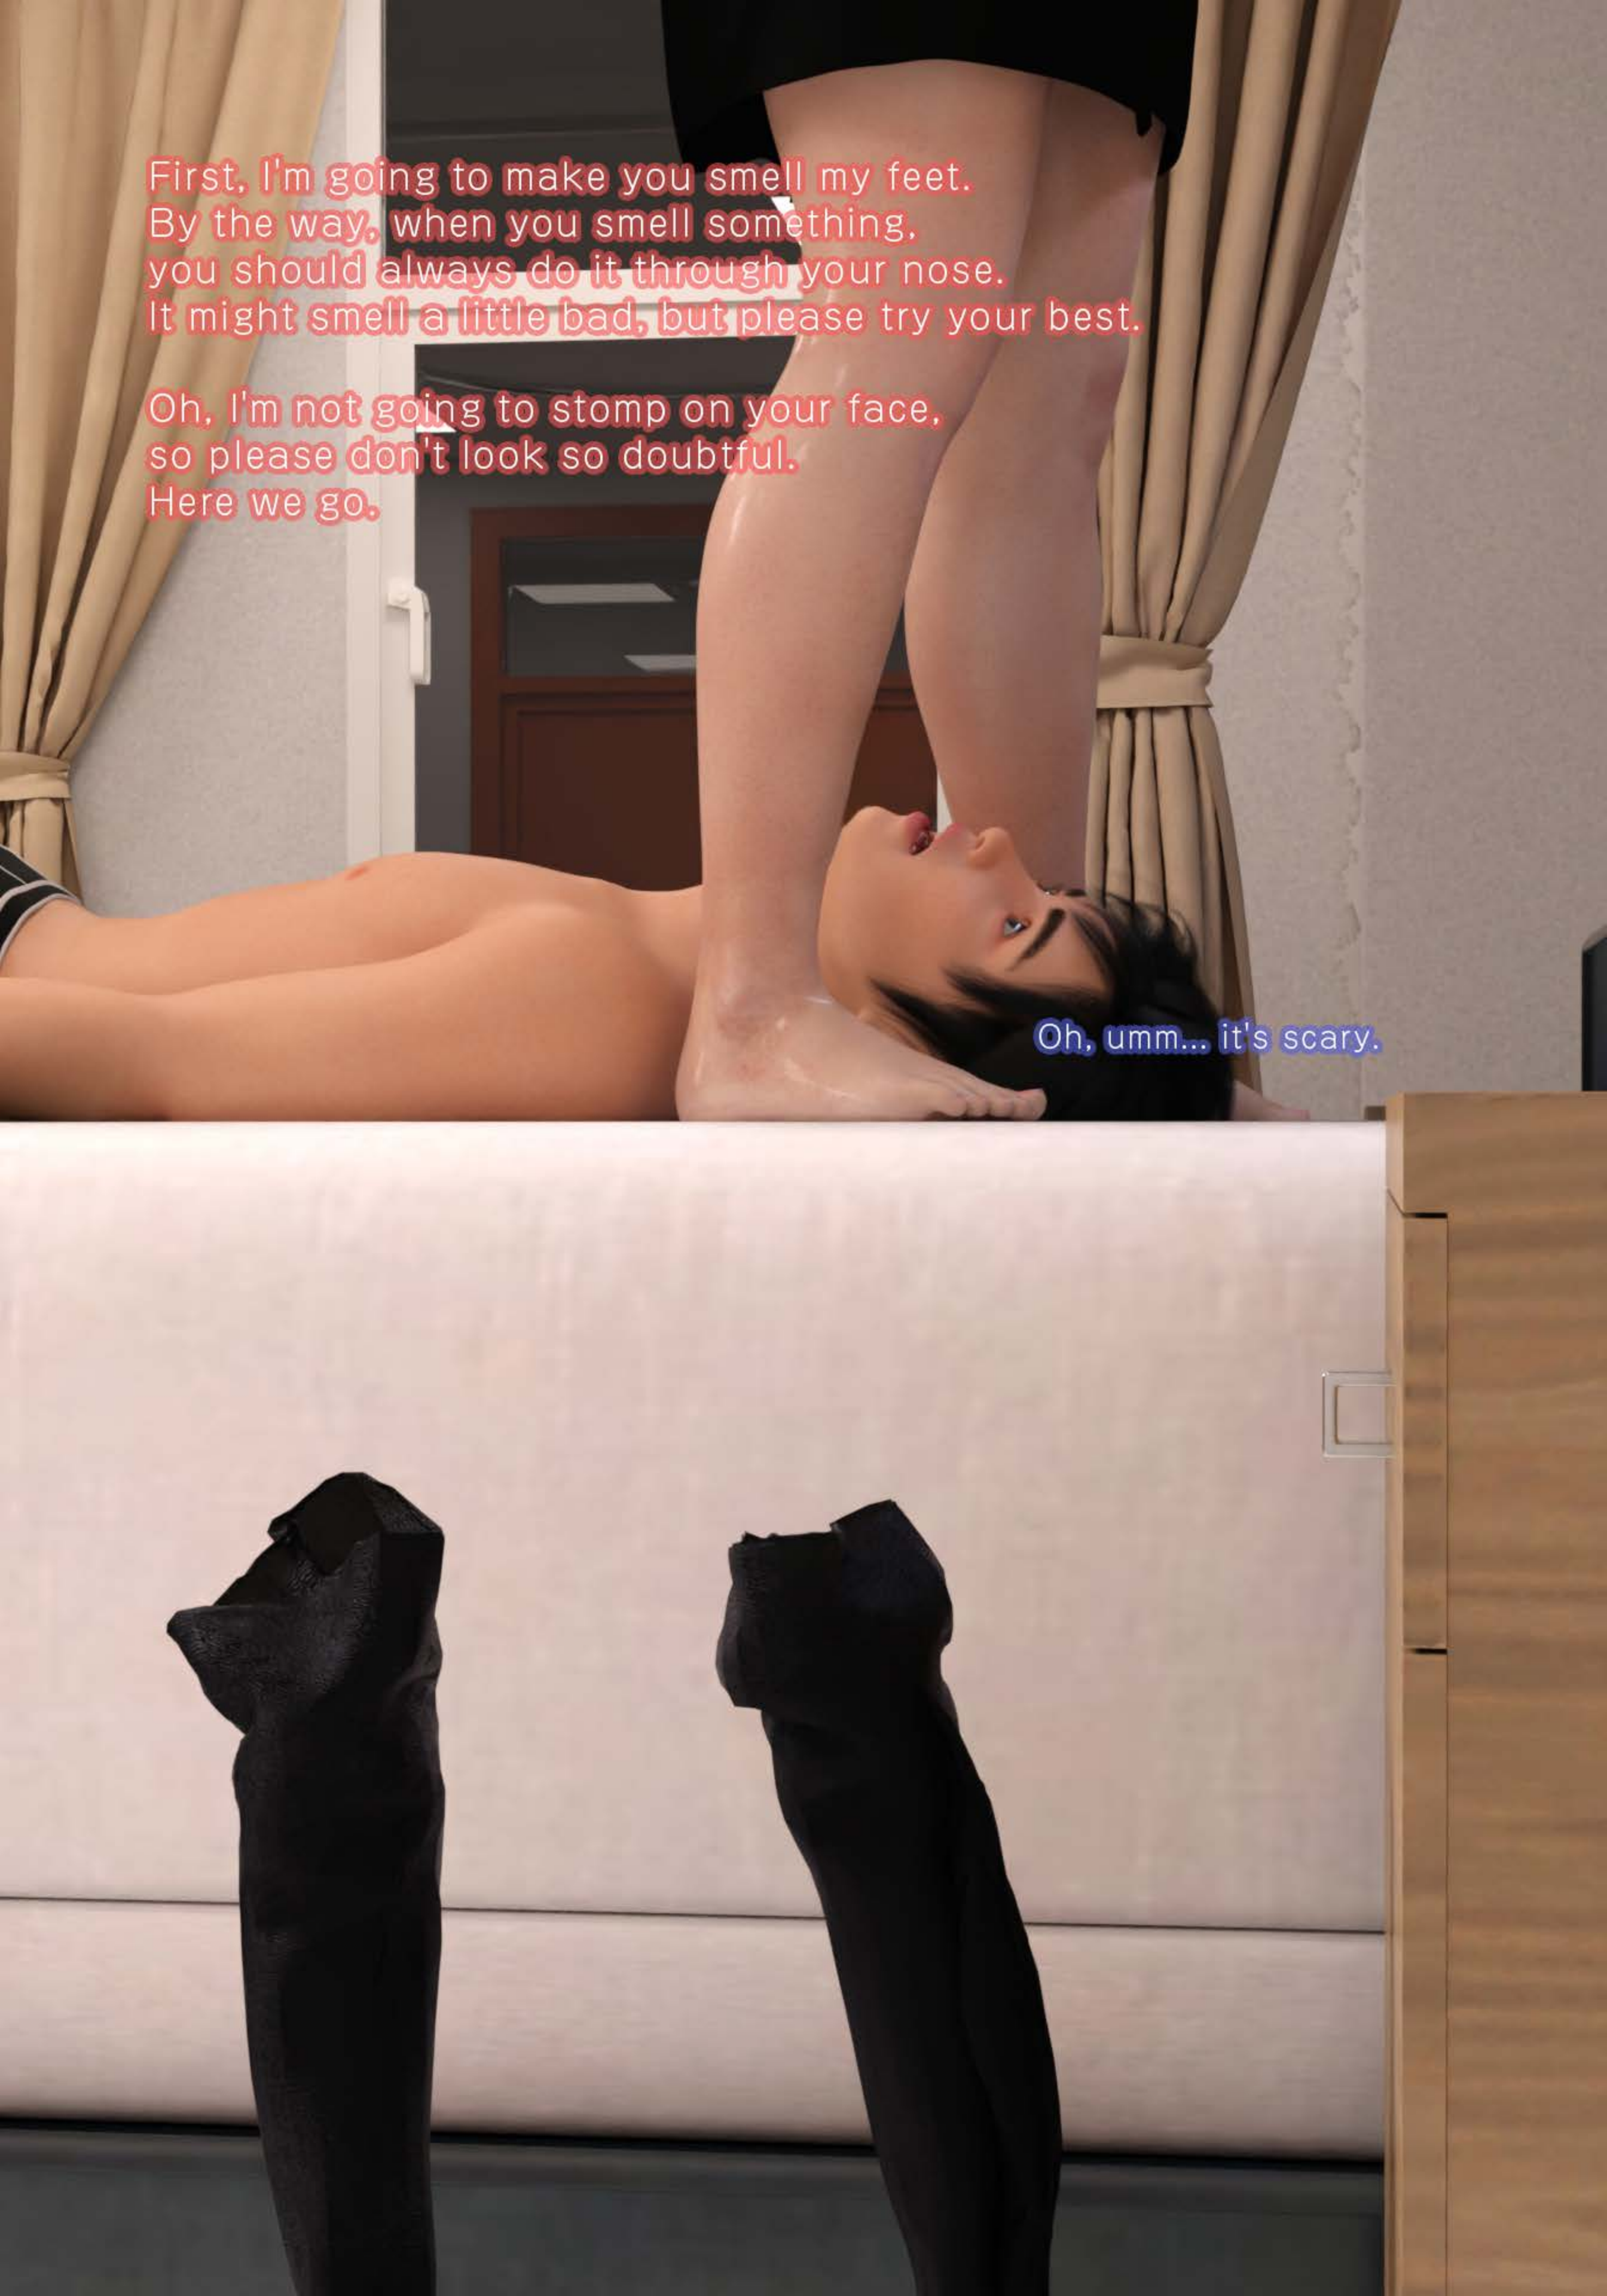

Now, we'll explain the tests you'll be taking each day.
To be blunt, you'll be gradually ingesting our body odor and bodily fluids.

We'll give you a supplementary explanation of the medicine
you just drank.

This is a medicine that reacts to the things expelled from the
bodies of the women and causes changes in your body.

When the change occurs, your body should feel a little itchy.
Please let us know whenever you feel anything.

Well then, seeing is believing.
Let's get started.

First, I'm going to make you smell my feet.
By the way, when you smell something,
you should always do it through your nose.
It might smell a little bad, but please try your best.

Oh, I'm not going to stomp on your face,
so please don't look so doubtful.
Here we go.

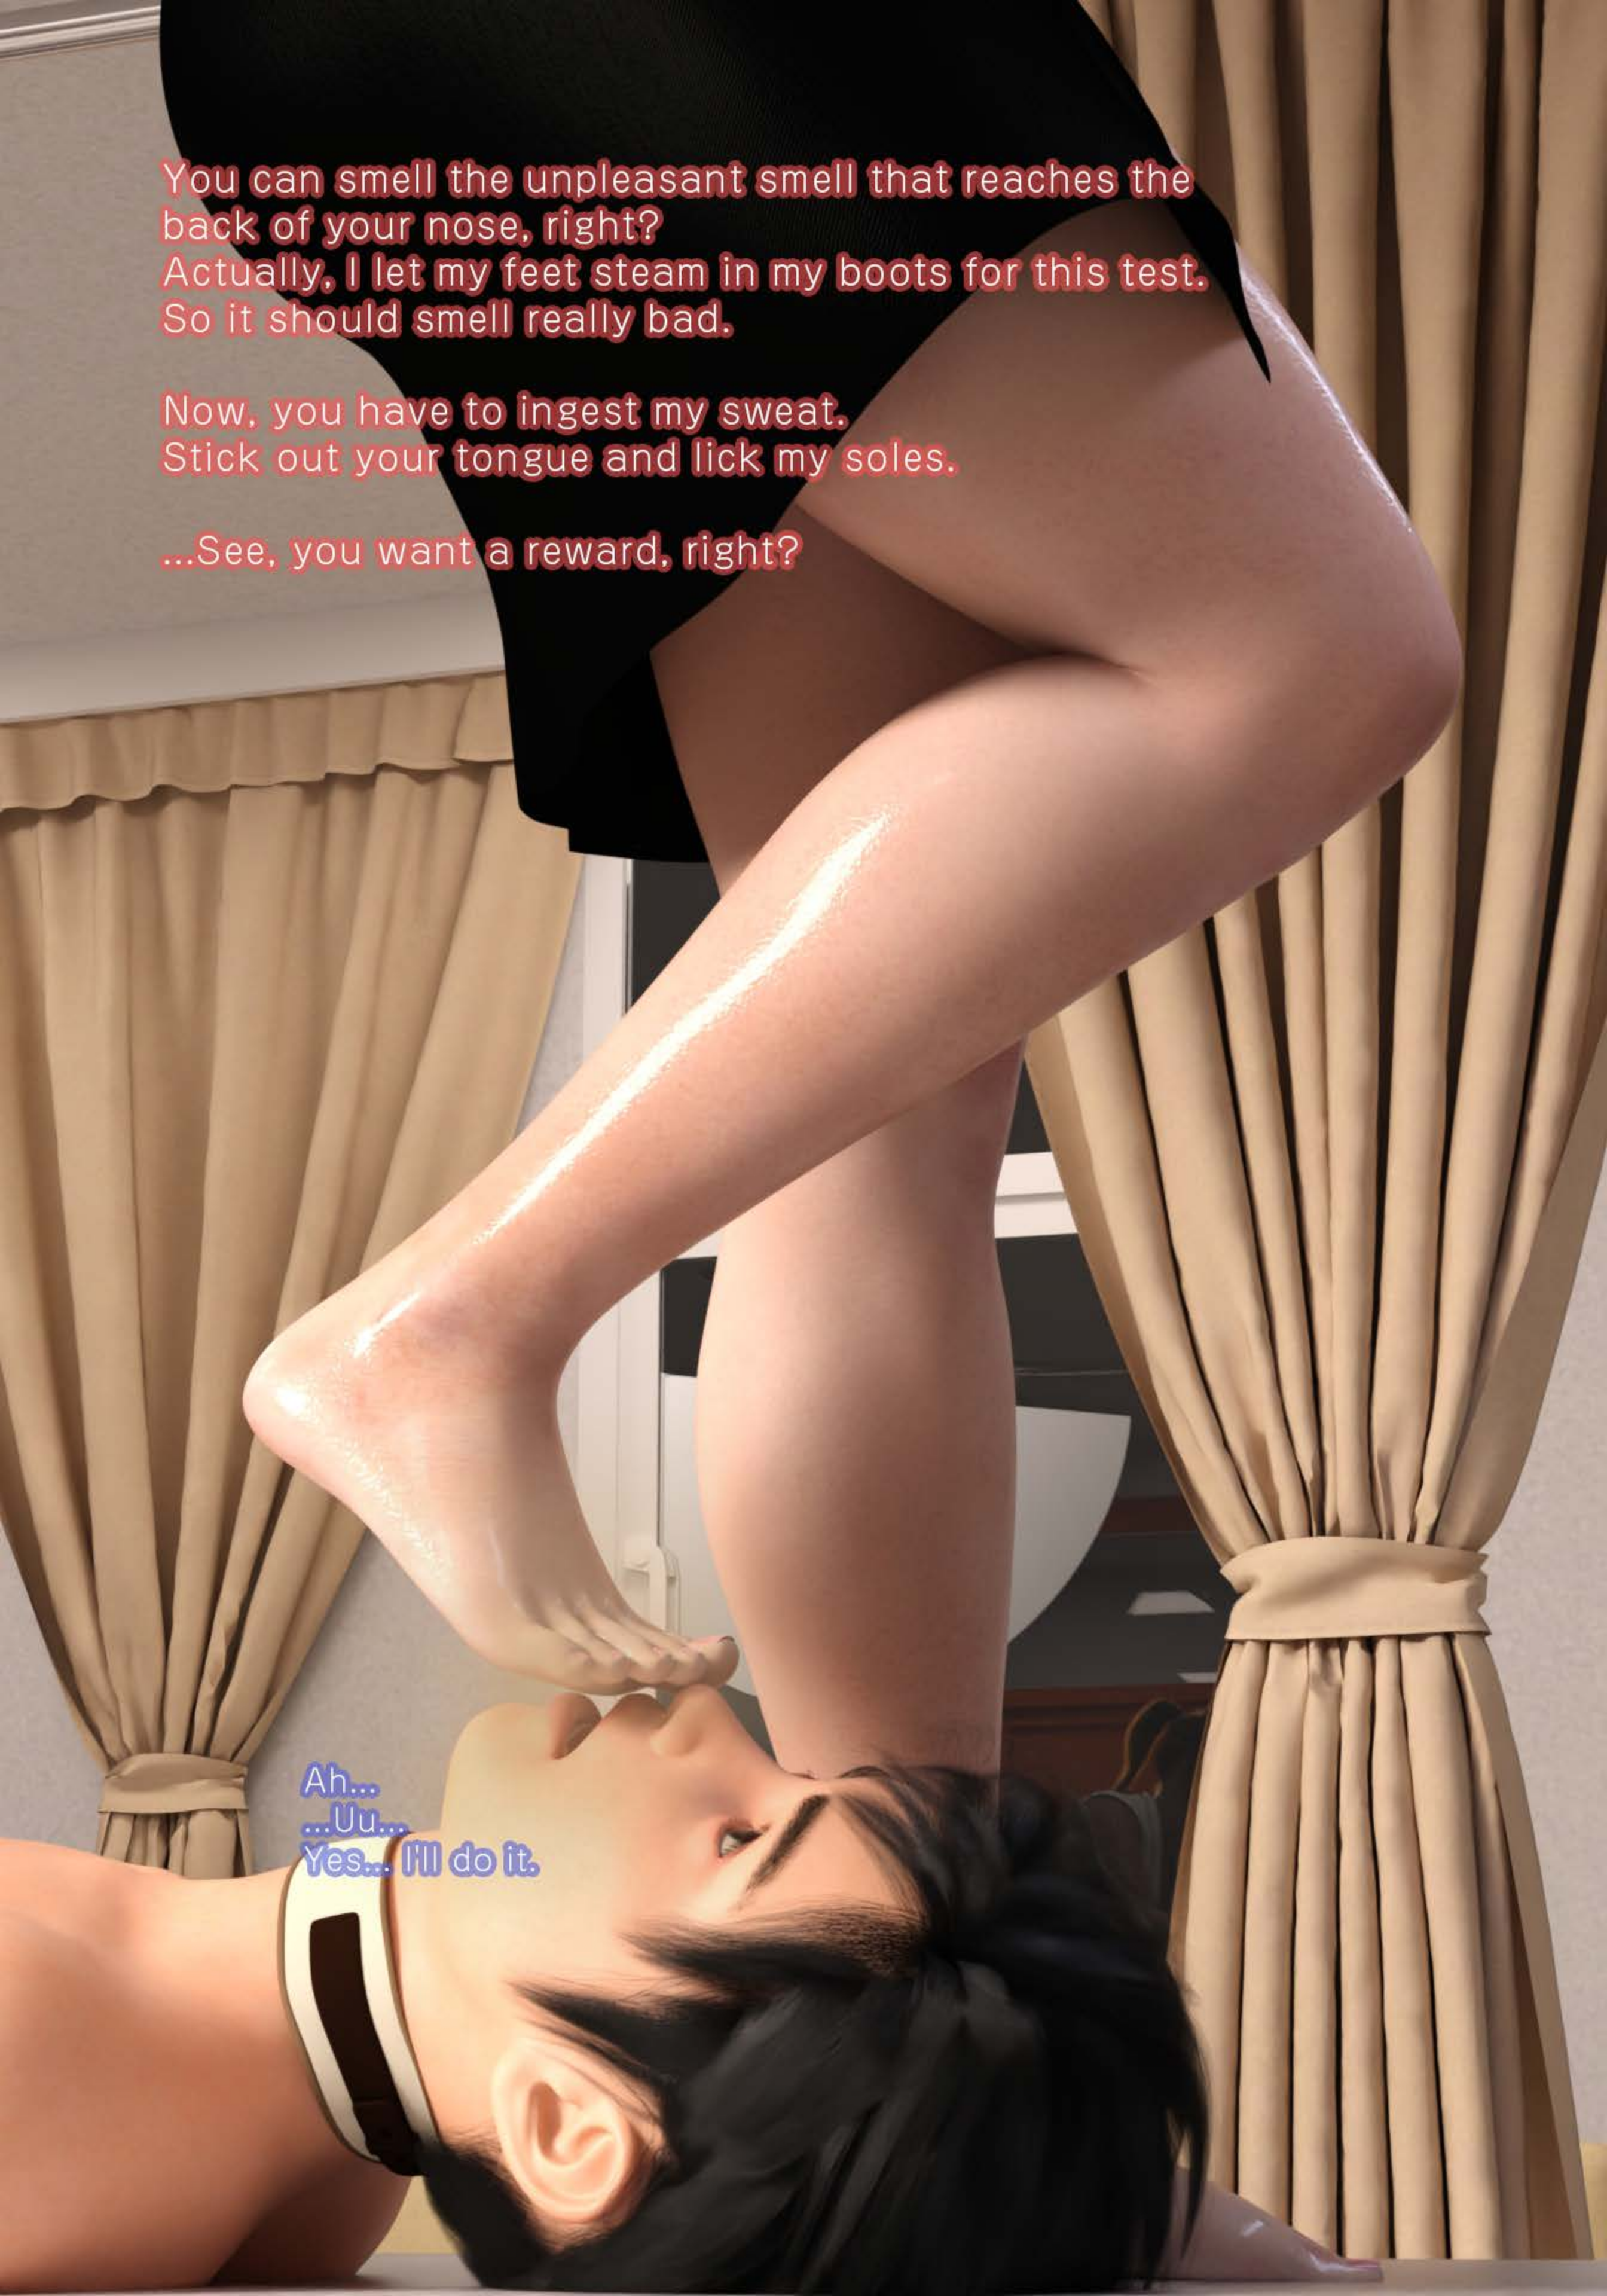

Oh, umm... it's scary.

This is just the beginning.
Well, if you really get fed up,
you can stop, so please follow the instructions for now.
Now, concentrate on taking in the smell.

Can you smell the sour smell of my sweat
wafting up to your nose?

~ 55y...

You can smell the unpleasant smell that reaches the back of your nose, right?
Actually, I let my feet steam in my boots for this test.
So it should smell really bad.

Now, you have to ingest my sweat.
Stick out your tongue and lick my soles.

...See, you want a reward, right?

Ah...
...Uu...
Yes... I'll do it.

Hmmm... that's right... that's the way to do it.
I've been aging you for you.
Do you think my sweaty feet are delicious?
You don't just lick my feet, you swallow my sweat.
And you tell us immediately if you feel any changes in your body.

Mmm... Ugh...
I understand.

Oh... my body feels itchy...!

A 3D animated scene set in a modern living room. A woman with brown hair in a ponytail, wearing glasses, a white short-sleeved shirt, and a grey skirt, is kneeling on a patterned rug. She is massaging the right leg of a man lying on his back on a white surface. The man is wearing black shorts with white trim and a white collar. Another person, whose face is obscured by a large black silhouette, is leaning over the man's head, massaging his temples. The room features a window with tan curtains, a yellow sofa, and a ceiling light fixture. Hand-drawn squiggly lines are scattered around the man's head and leg, indicating a reaction or sensation.

Yeah... that's a good reaction.
The medicine seems to be working quite well.
For now, let's stop there.

Oh! Aw....
Ah!
Oh! Oh!

It was a feeling that was hard to describe, wasn't it?
For you, it seems to be a little bit pleasant.

You look like you want to continue, but for now,
it's over.

First of all, you should rest.
See you.

Day 2, night

A woman with dark hair is smiling and looking towards the camera. She is wearing a black, strapless, tube-style top. Her arms are raised and bent at the elbows, with her hands positioned near her shoulders, forming a 'V' shape. The background is a plain, light-colored wall.

Wake up!
We're starting the next test.

A woman with dark hair and bangs, wearing a red hat, black lace bra, black lace panties, black thigh-high stockings, and black gloves. She is posing with her hands on her hips, looking directly at the camera with a slight smile. The background is a plain, light-colored wall.

Are you awake? It's not over yet.
Besides, you wanted more, didn't you?

I'll let you sniff a place that smells even stronger♥
You know where that is, right? Hehehe♥

I'll let you smell my sweaty,
sticky crotch♥...hehe♥.

Smelling it will make your body itch, right? ...♥

Your body will start to heat up, right?
But it seems that bodily fluids have a stronger
effect than smells.

You want to lick this, don't you?

Okay, I'll give you permission to lick it.
But you have to promise me one thing.

That promise means that you will continue to lick
until I declare the end.

You must not stop on your own judgment.

Well, I think that your body will also undergo a strong change,
but if you still think it's okay,
then stick out your tongue and start.

Ah... yes...

Now... stick out your tongue.
Then, lick it as if you're devouring it,
as if you're stirring it up inside me.

Keep swallowing the liquid that's overflowing,
as if you're going to let my fountain run dry.

Ah... you have a very good tongue.
Is my pussy juice delicious?
Or is it pleasant?

Heh heh heh♥ I can feel your changes.
Do you know what's happening now?

Ah♥ you're changing more and more♥

Don't you realize it yourself?

...Ah... you're feeling ecstasy to the point
where you can't even think about it♥

Nn♥ It's not over yet.
Come on, lick some more.

Drink up all the love juice that's overflowing♥

Next time, put your tongue in even further.
Lick it all the way to the back.

Please... help me..
Stop... stop..

No, you have to finish it.

Haha♥ It's so funny♥...
Ah, it feels so good.
I knew it would be this way...♥
Hahaha♥ Well then, I'll finish up soon.

A woman with long dark hair, wearing a black lace bra and black thigh-high stockings, stands over a man lying on his back. She is looking down at him with a slight smile. The man is wearing a black cap and has his eyes closed. The scene is dimly lit, with a dark background.

Well then, I'll finish it as promised.
Thank you for your hard work♥ I had a lot of fun♥
It looks like your body has changed a lot too.

If you want to stop, you can decide tomorrow morning.

But if you continue tomorrow,
I'll do something that will make you feel even better at night♥

U...U...
Okay...

Uncomfortable feeling

Day 3, morning

The man woke up in the morning.
He felt a strange sense of fatigue throughout his body.
There was also something strange about the scenery he could see.

He considered whether to cancel the test,
but then remembered his exchange with Chihiro last night.

He then decided to continue for another day.
If the physical discomfort became too great,
he decided to stop, and he closed his eyes again.

Day 3, evening

Hello. You slept very soundly.
I see you haven't hit the interrupt button yet.
Well, then, I'll get right to work on today's test.
Based on the data I got from you yesterday,
I will test you today.
Chihiro will assist me,
and you will lie down in the same position.

Hey, from the next test,
I won't ask you every time about interruptions.

So, if you want to interrupt,
don't hesitate to do it properly.
Understood?

Yes, I understand.
I look forward to working with you today.

You see, relax your body.
And if you feel excessively breathless or uncomfortable,
tap my foot to signal me.

If you make it to the end of the day, I'll reward you tonight.
Hmmm, how about that? Isn't this fun?

Yes, it's a little scary, but I'll do my best!

Okay, I guess we're ready.
Let's get started.
I look forward to getting some good data today.

Let me tell you about today's test and the data I got from you yesterday.
Today's test will be based on the smell of my ass.

And the effects of the drug were stronger
when you felt suffocation and disgust.
So I'm going to give you a stronger stimulation today.

Close your eyes and focus on your breathing.
Feel her scent entering your nose,
entering your lungs,
and working its way into your body.

Hmmm, your body seems to be shaking a little.
You can see the effects of the drug
beginning to take effect, can't you?
Come on, come on, sniff more.

That's good.
It's very helpful that you're cooperating with the test.
Let's move on to the next step, shall we?
Chihiro, move into the posture I've instructed you to assume.
This should demonstrate that the data is correct

A woman in a white lab coat is sitting on a person lying on a table. The woman is looking down at the person and has a mischievous expression. The person is lying on their back, wearing a black bikini bottom, and has their hands clasped together. The woman's legs are spread wide, and she is holding the person's legs. The background is a wooden wall with a white shelf.

Yeah, that's good.
Now you can't get out of here.
Well, I'm going to fart now. And a very stinky one at that.
Heh heh, you must be so scared.
If the drug works strongly enough, my research will be proven correct.
That's why I'm so excited.

Oh my, the drug is starting to work even though it hasn't done anything yet.
It seems that the key is aversion and fear, after all.
Now, I'm going to replace all the air in your nose and lungs with my farts.
My farts smelled so much worse today. Heh heh.

Translated with www.DeepL.com/Translator (free version)

I'll fart then.
Five... four... three... two... one...

!!
fart!!

Booo..!!

Bsss..bb...

Reoobss

BrtAAP!

Pttt. Bbb

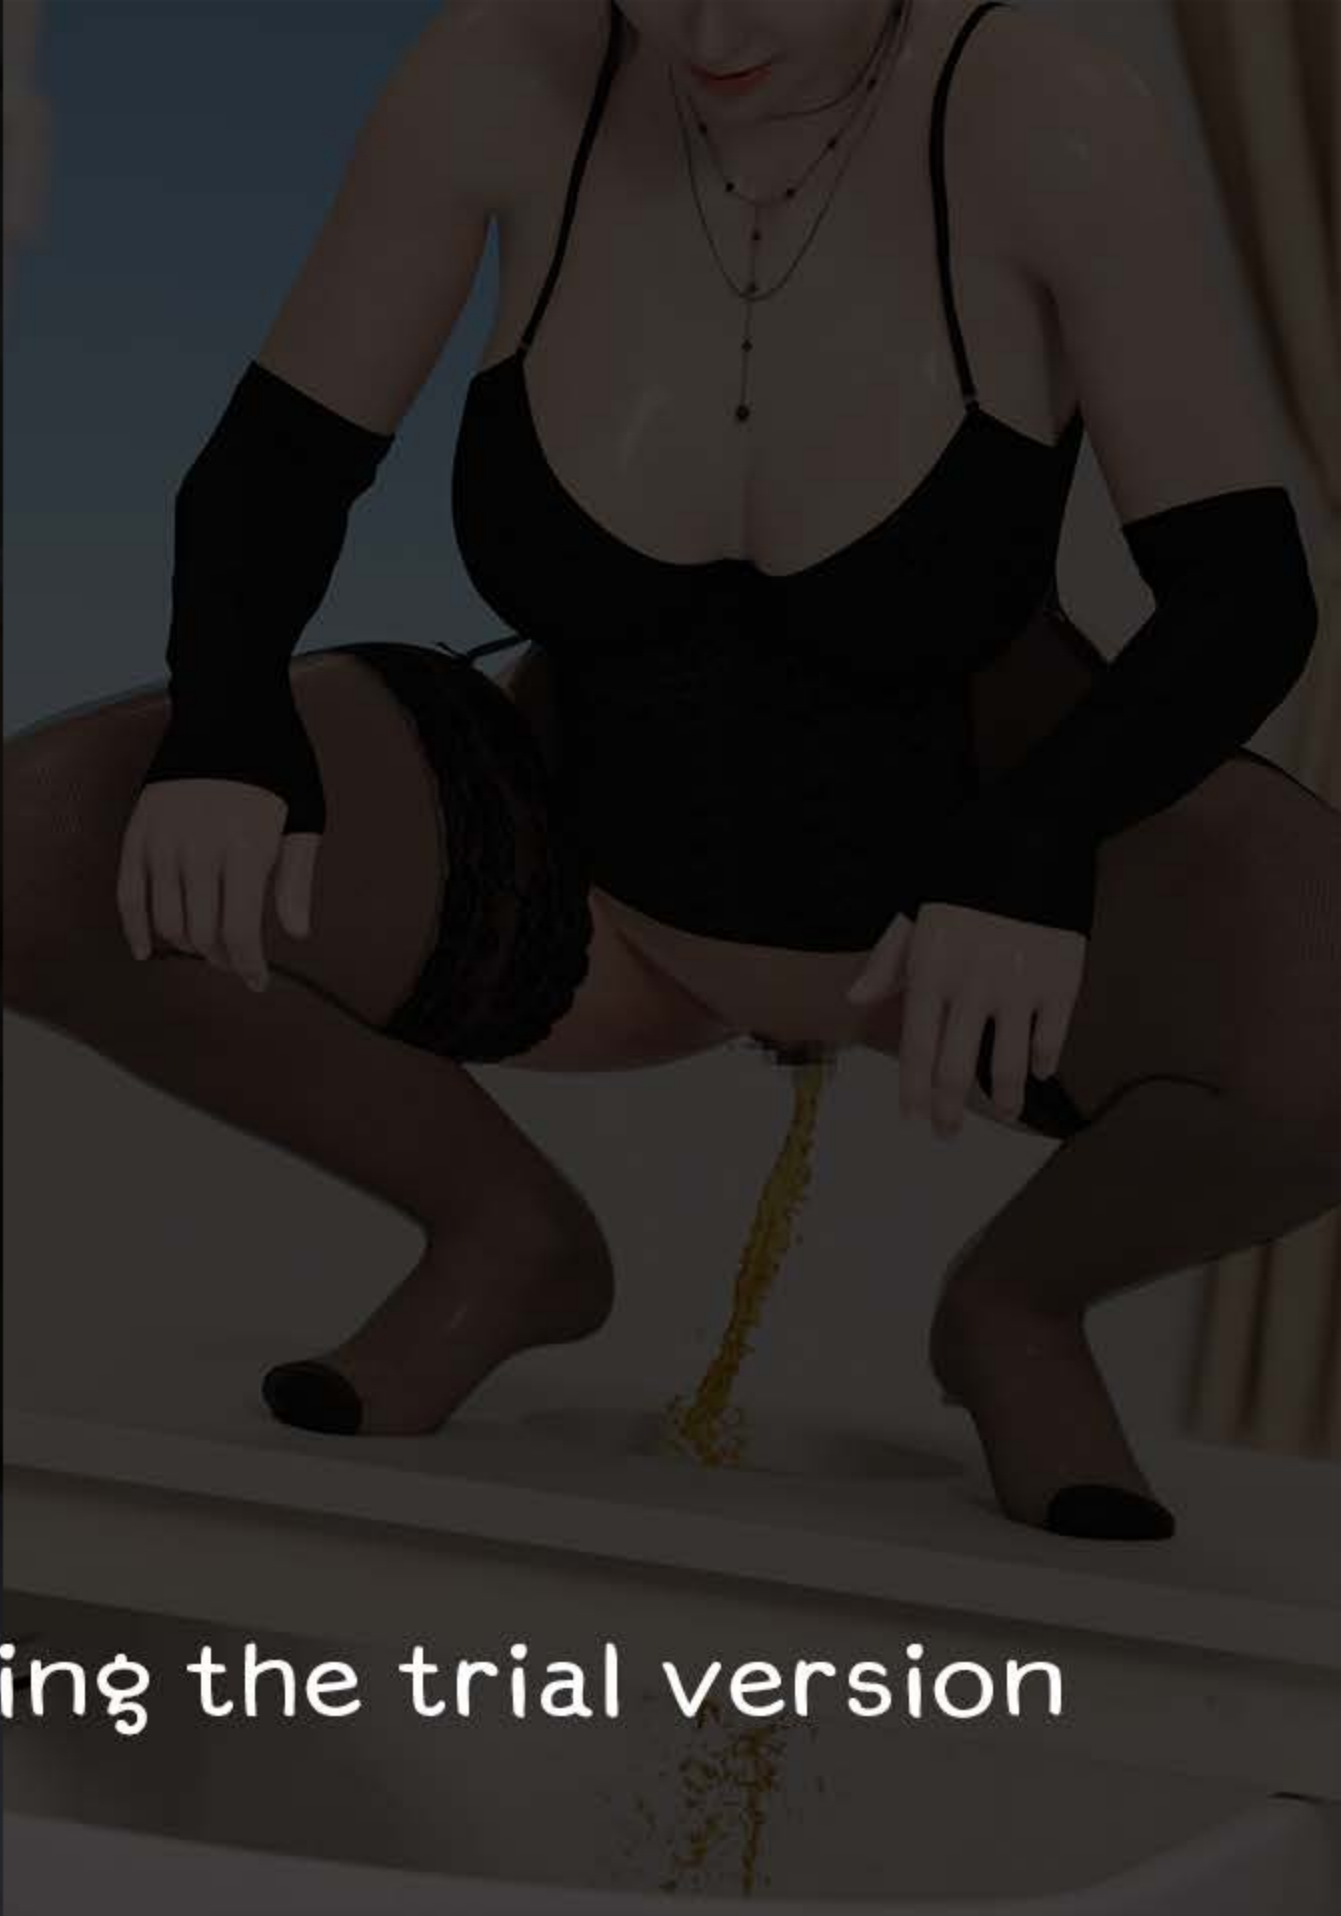

Oh my God, he's shaking with white eyes.
Can we go on with the test any longer?

Hmmm...no. But it seems my hypothesis was correct.
Chihiro, take care of him.
I'll go on with preparations for tomorrow.

Day 3, night

Here...wake up!
My your night of fun is about to begin.
You're so cute, the medicine has made you so small.
If only I had this medicine, this world would be a better place.
Ha-ha-ha-ha-ha...
...Hey...wake up!

Thank you for reading the trial version
to the end.
