Test Arc

**Yes, I won this quiz too. See?
You barely managed to avoid failing again.**

S-Stop it!
I definitely won't lose next time!

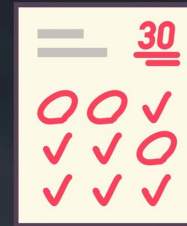

A scoreboard for the boy, showing a score of 80. It has three rows of three circles each. The top row has two empty circles followed by a red 80. The middle row has a red checkmark, an empty circle, and an empty circle. The bottom row has three empty circles.

No way, no way.
Even if two 140 cm shorties teamed up,
you still couldn't reach us boys.

A scoreboard for the girl with brown hair, showing a score of 30. It has three rows of three circles each. The top row has two empty circles followed by a red 30. The middle row has a red checkmark, a red checkmark, and an empty circle. The bottom row has a red checkmark, a red checkmark, and a red checkmark.

Huh? I'm hearing
some kind of strange sound.

**My body feels hot...
I have this strange feeling,
like I'm about to burst with energy....**

Day 1

140 cm

3 days later

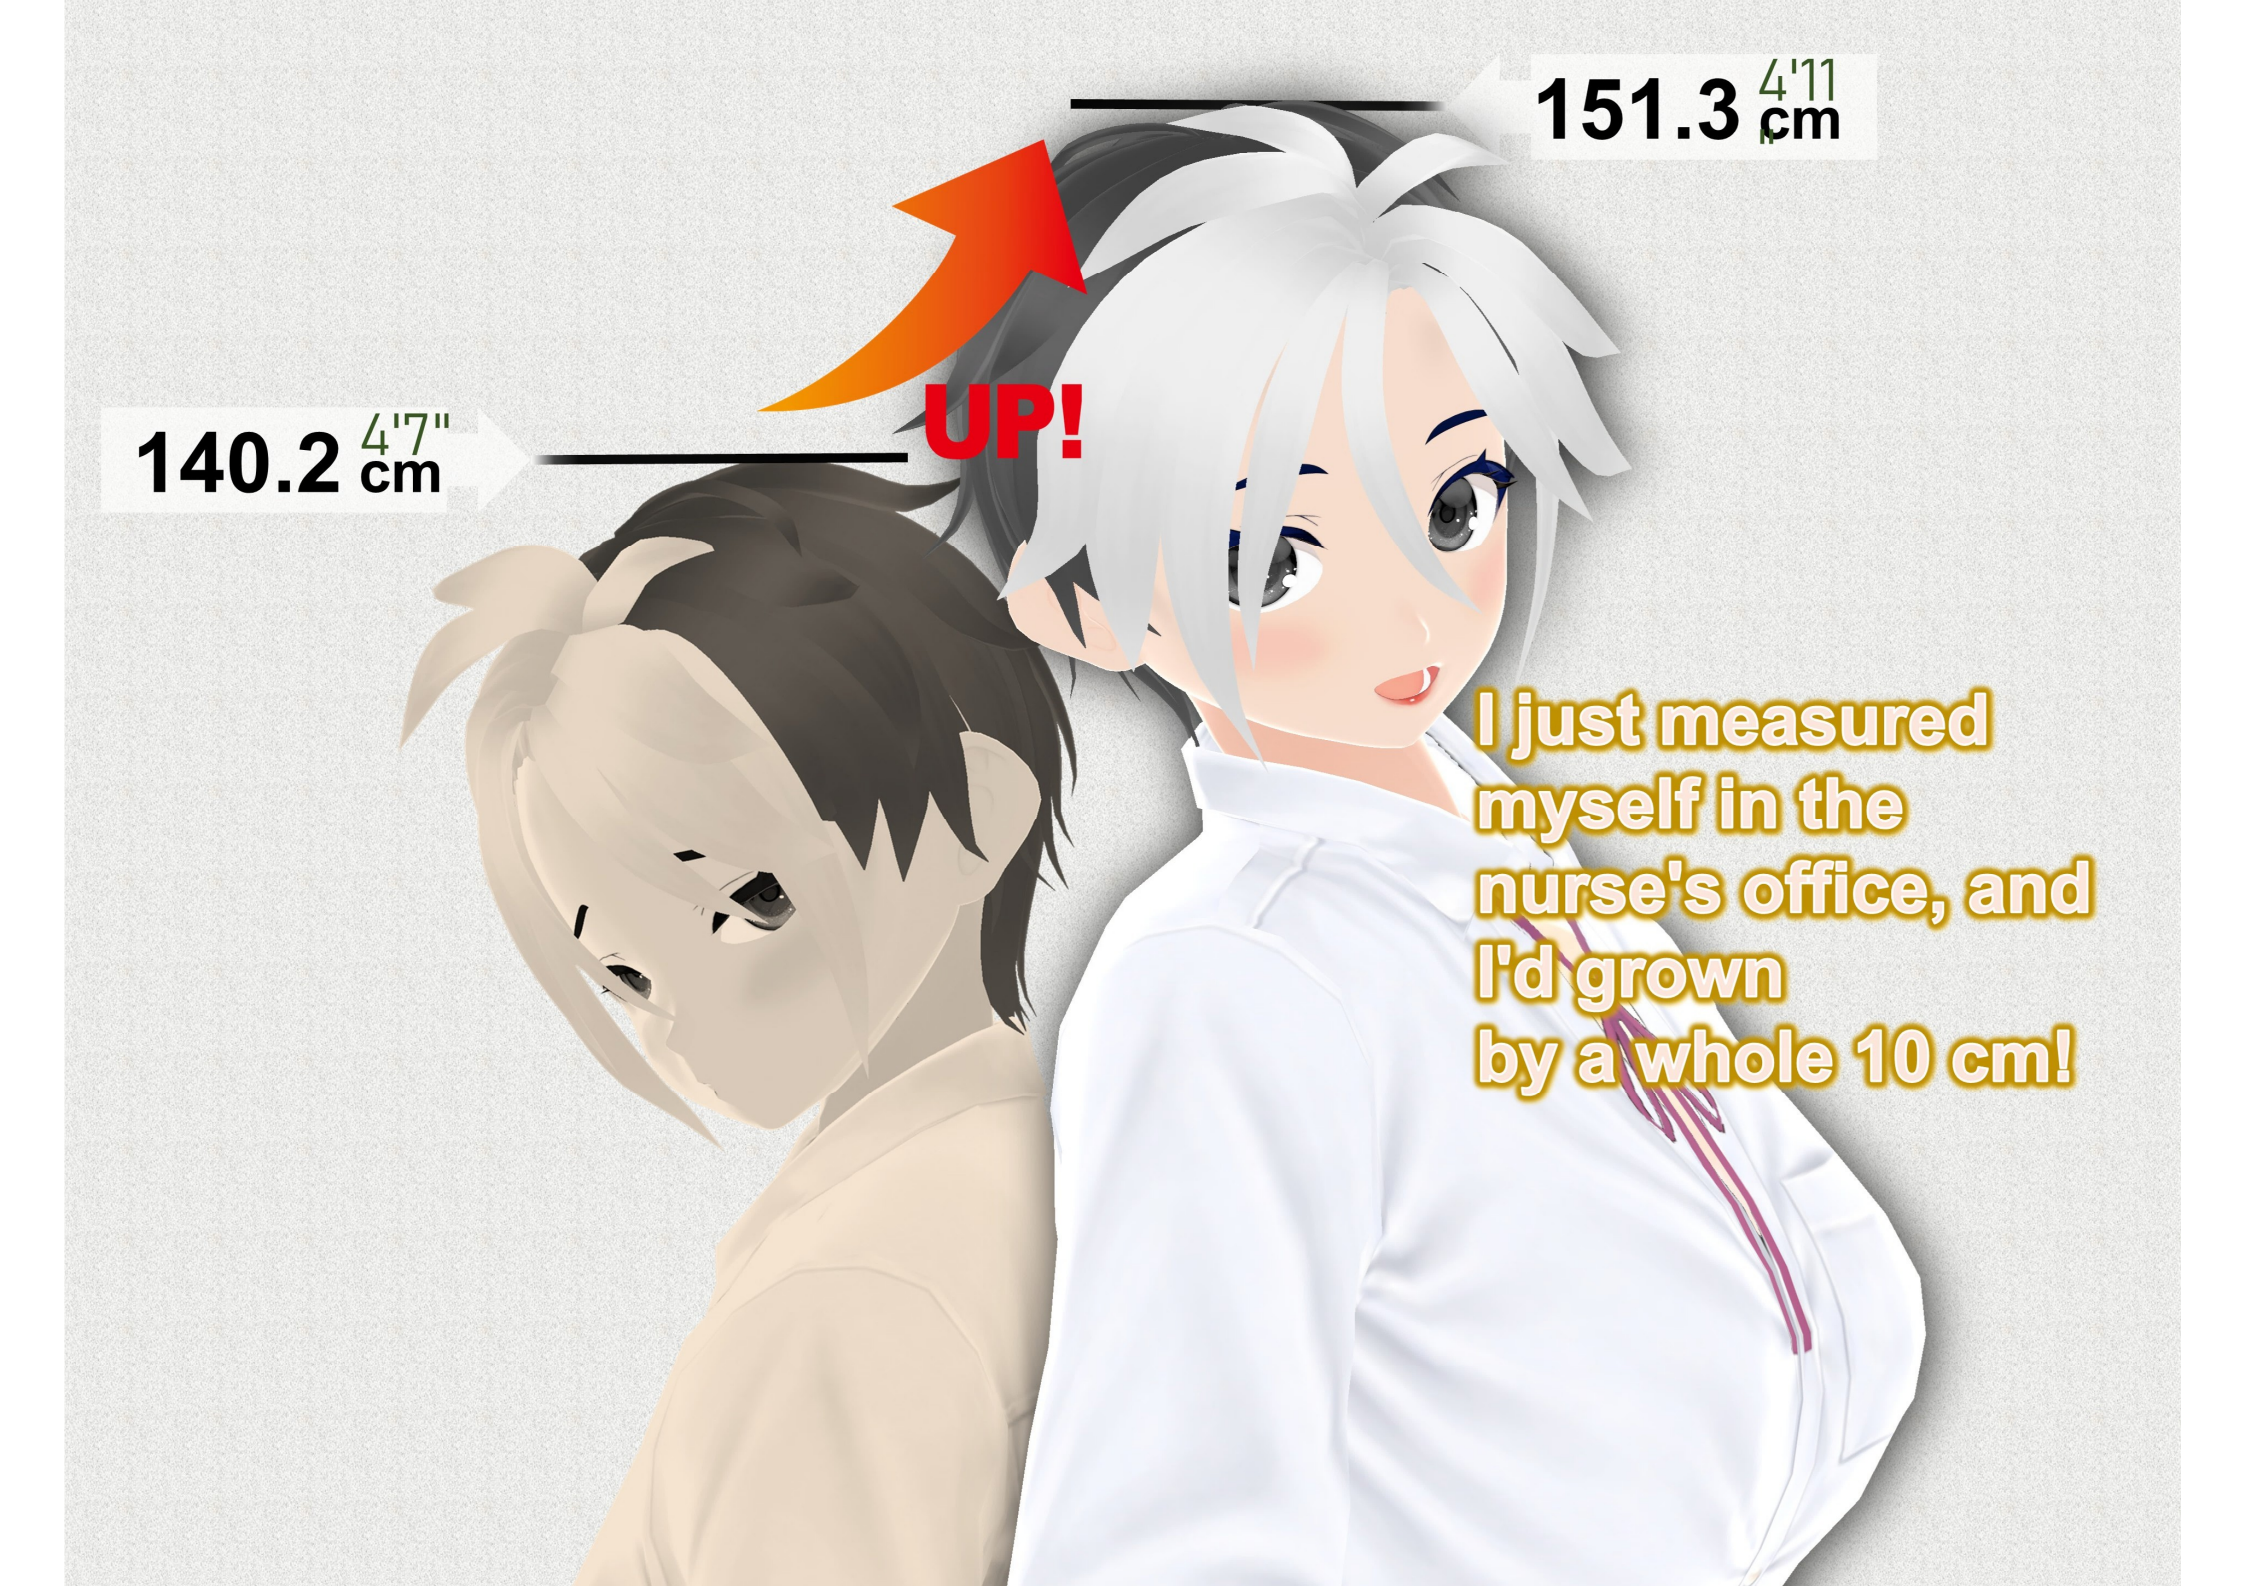

Lately, I feel like I can see the writing
on the blackboard more clearly.

Hey, listen!

What's wrong?

140.2 ^{4'7"}cm

151.3 ^{4'11"}cm

UP!

I just measured
myself in the
nurse's office, and
I'd grown
by a whole 10 cm!

Stand up! I'm probably taller than you now.

Okay.

Here we go.

Huh?

There's hardly any difference.

Huh? That's strange...

An anime-style illustration featuring three characters. On the left, a male character with short black hair and black-rimmed glasses looks towards the center. He is wearing a light blue button-down shirt over a black t-shirt. In the center, a character with short, layered white hair and blue eyes looks towards the right. They are wearing a white button-down shirt with a purple ribbon tied in a bow at the collar. On the right, a female character with long, wavy brown hair and blue eyes looks towards the center. She is also wearing a white button-down shirt with a purple ribbon tied in a bow at the collar. The background is a simple, out-of-focus greyish-blue.

What's going on?

**I was talking about
how I might have grown taller.**

**You do seem a little taller,
that's for sure. But you're still pretty short.**

**(I feel like I'm getting closer to eye level with the boys.
Does that mean only the girls are growing?)**

Day 3
140^{4'7"}cm → 150^{4'11"}cm

6 days later

(Isn't today's test easy?)

**How about that! I got 80 points!
That's the highest score among
the boys!**

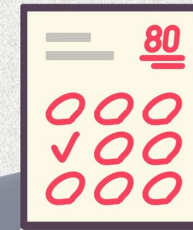

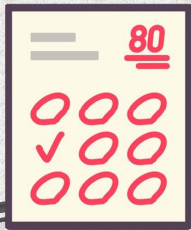

I got the same score.

I got the same score.

If that's the same as the highest
score among the boys, then
every boy lost to a girl.

A 3D anime-style character with short, black, slightly messy hair and bangs. They are wearing thick, black-rimmed glasses. The character is shown from the chest up, in a three-quarter profile view, looking downwards and slightly to the left. They have a smug or satisfied expression, with a small, open-mouthed smile showing their teeth. They are wearing a light blue collared shirt. The background consists of vertical grey bars and a blue sky with light clouds, suggesting an outdoor setting like a balcony or window.

**You girls are short and stupid.
It was just a fluke!**

Who are you
calling short?

What?!

**Not only are our scores the same,
but we're the same height too.**

You'd better work hard,
or the girls will overtake you
in everything♡

Day 6

150cm^{4'11"} → 160cm^{5'3"}

Day 3
140cm → 150cm
4'7" → 4'11"

Yes, I won this quiz too. See?
You barely managed to avoid failing again.

Girls grow in height, style and ability!
But boys stay the same!

I got the same score.

And I'm already taller than you, too.

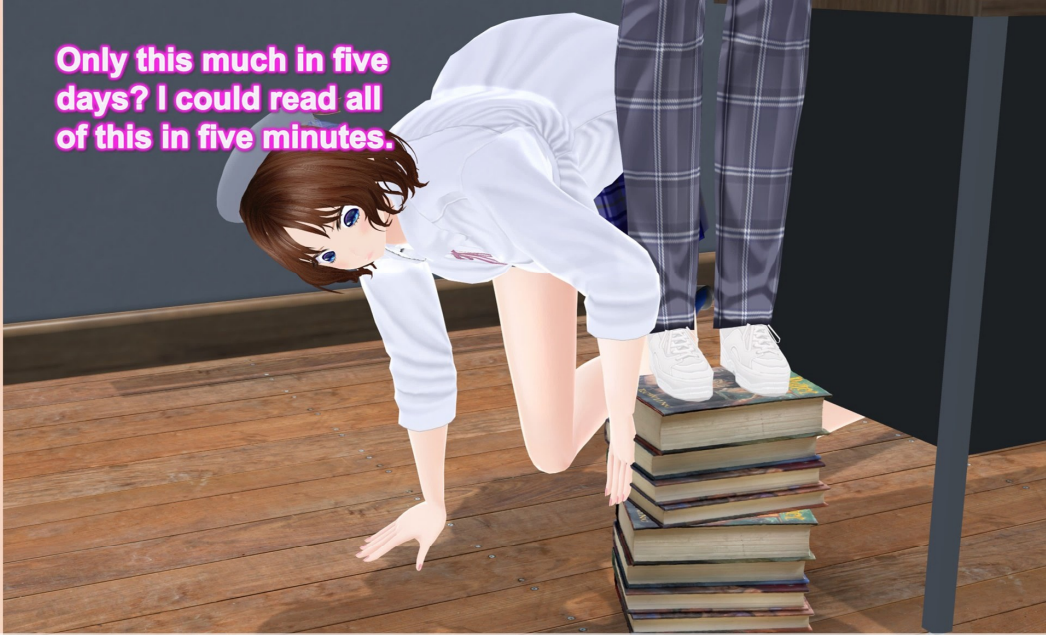

Ugh.....

Looks like the boys
are the short and
stupid ones now.

It's 211,842,586,265,860, right?
That's an easy multiplication problem.

Only this much in five days? I could read all of this in five minutes.

Small girls outgrow boys!

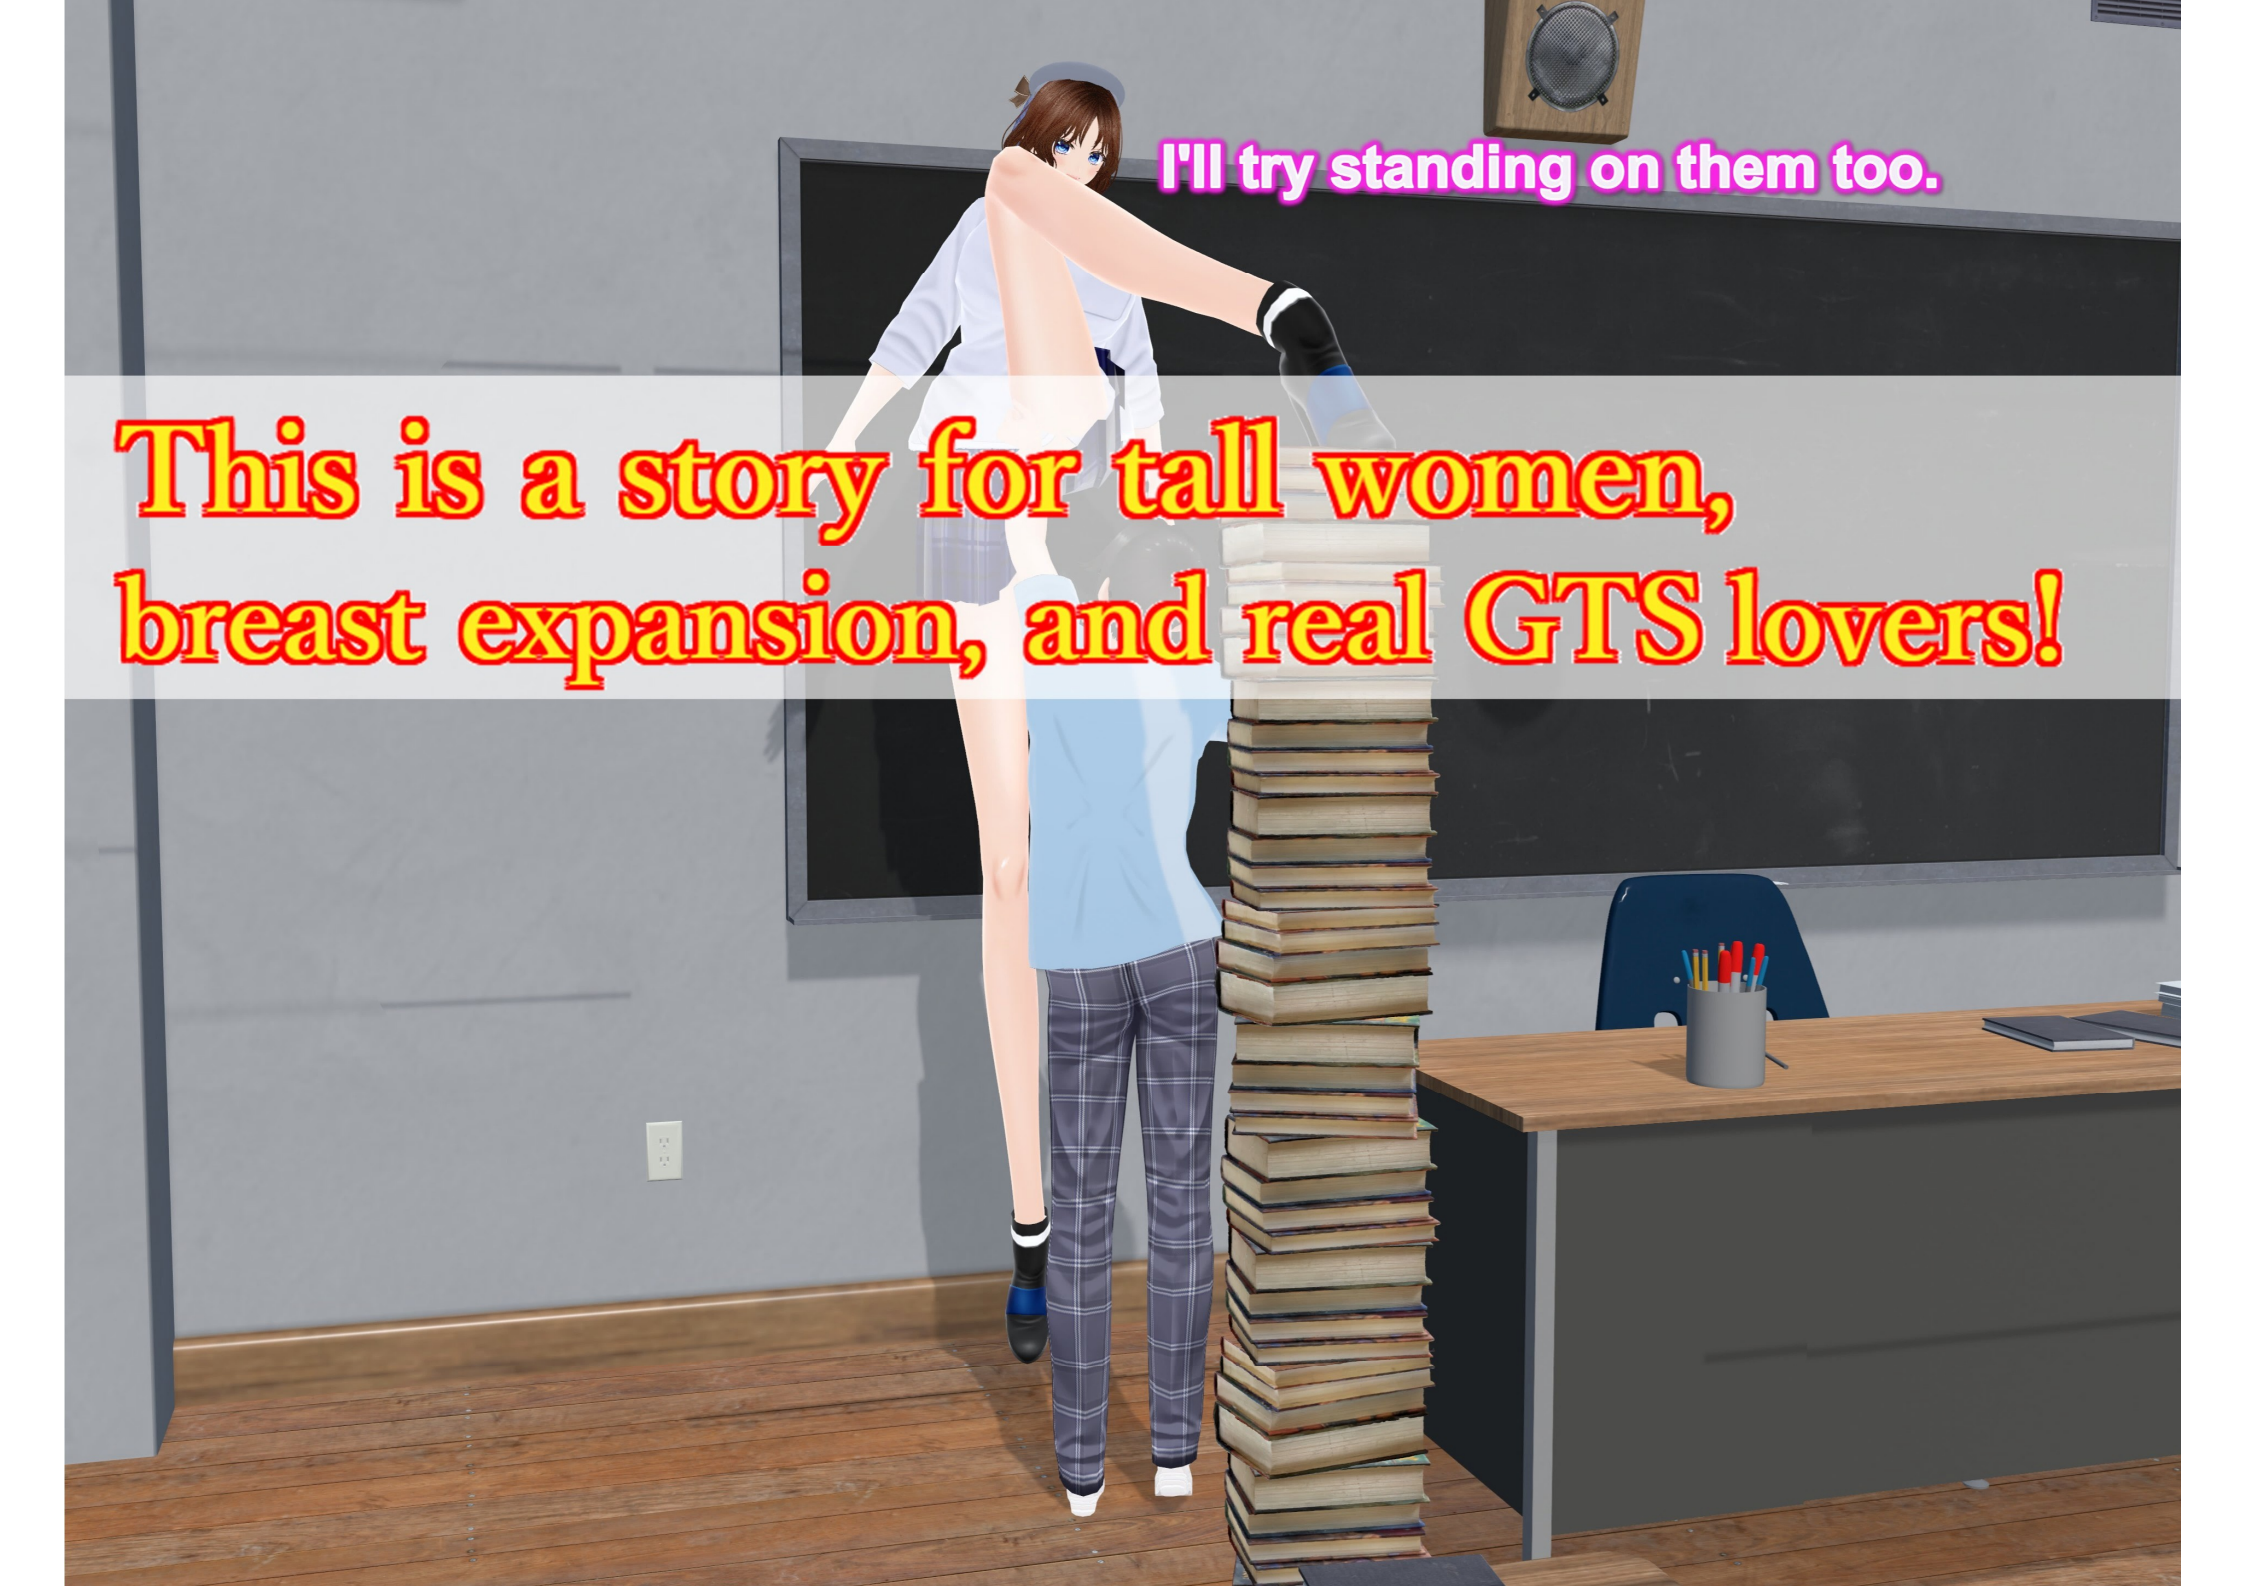

Girls grow after growth!

Every girl gets 100 points,
while every boy gets 0.

The gap is so huge that
a test can't even show how
stupid the boys have become♡

I'll try standing on them too.

**This is a story for tall women,
breast expansion, and real GTS lovers!**
