Voice materials for games, video production, creators

Rights at the time of use, credit description, etc.

It is a collection of voice materials that eliminates worries after purchasing materials and allows you to concentrate on production.

File format: wav (48kHz 24bit), ogg, mp3

Includes Japanese and English text files of the recorded dialogue.

The works sold on this label are original works that ensure transparency of rights relations.

It is a package that you can use with peace of mind without worrying about rights-related matters, which will become more complicated with the spread of AI.

## ☒About use

These materials may be used in commercial works without the need for credit notation.

Redistribution or sale as materials is prohibited.

This material may also be used in adult-oriented works.

In any of these uses, it is prohibited to re-edit the voice and replace it with other words, or to use it in such a way as to change the original intent of the dialogue.

Even in cases other than the above, please refrain from any use that is deemed to lack consideration for the voice actors.

This will have a significant impact on the future provision of materials, so we ask for your cooperation in this matter.

This package is royalty-free material. Copyrights are not waived.
