

To my surprise, it was identical to that of a human female's.

"Kyyu..."

After a while, perhaps due to a physiological phenomenon, a thick, slimy liquid oozed out.

"Kyyy"

A unique smell started to fill the room, but it didn't make me feel sick or anything.

"Ok, we're ready. I'm putting it in."

I slowly rubbed the tip against its slit. I braced myself, and pushed it all the way in.

"Ksshhhhhh!!"

X-01's body trembled. Although it was a bit tight, it was unbelievably good. I felt my brain go numb.

"It's as if this was made for pleasuring men!"
The structure of its insides seem to be different than that of a human's, and there is a spot that my tip rubs against, that is bumpy and hard. That spot gave me an immense amount of pleasure that I could never get sleeping with a human female.

X-01 began to excrete a substance that made its skin slippery. The disgust I felt in the beginning quickly faded, and I just kept thrusting my hips. My chest got hotter and hotter as I saw X-01 squirm in pain, as it slavered everywhere.

"Understood."
